Celebration Crèches

Monmouthshire Genesis Project used Celebration Crèches to provide childcare for parents who were attending courses run by Monmouthshire Community Education, University of Wales, Newport and Monmouthshire Flying Start Workforce Development Roadshows in local Schools and Community Centres.

We were impressed the quality of the crèches provided; the variety of activities and equipment available and the gentle and caring professionalism displayed by the team.

Some of the crèches ran weekly but several were Training Days where the children and staff had not met before. The children's ages ranged from 6 weeks to 4 years and we can honestly say ALL of them enjoyed their time with Celebration Creches.

Monmouthshire Genesis Project aims to break down the barriers that prevent parents accessing education training or work opportunities.

The Genesis project is funded by Welsh Assemble Government European Union ESF Objective 3.
